

## Coach Campione's Coaching Philosophy:

**To win, while teaching the game of volleyball and its' fundamentals in a way that simulates game-like conditions, in a safe environment, that requires each player to give everything they can at all times, while still having fun and enjoying the game.**

**To develop a strong cohesive team chemistry, while stressing solid academics, good sportsmanship, a respect for the other team, its' coaches, players, and the officials while maintaining high standards for assistant coach, my players, and myself.**
